EXTERIOR

Building is of concrete with red tile roof. Tile will probably be closer to No. 3 or No. 8 than anything else.

The Tower is colored tile and is outline in neon light. Tile on tower is black diamonds (small) on light background.

The windows are bordered in blue after the style of No. 4.

Balconies are all of black iron railing and the floor of the main large balcony to the left is a brown cement.

Upper terrace is in lawn running down to patio which is cement and is enclosed by walls of concrete with a Spanish tile plaque to the rear. This plaque is of a Spanish dancer (full length) in blue.

Stairs to the right side are concrete with iron railing.

Below the patio the terrace slopes down and is planted to trees and shrubs and slopes to the street below which fronts the water. It may be necessary to do some work on this photo in order to bring out the terrace and the street below and the ocean below.

Along the entire right side of this terrace are planted small evergreen trees and the right side which slopes to the street is in green climbing vine called wandering jew.

MR. SLADEK:

This post card is to contain three views which should be placed in position as shown on layout inside of envelope, but when following layout make a big improvement in the design. Perhaps you could place the pictures at an angle. What we want is a snappy layout. When making layout be sure to leave sufficient space for copy matter.

Before retouching photograph see color instructions given to Mr. Buettner.

Take out Keystone imprint in lower left hand corner of photographs.

MR. BOCKSTETTE:

IN setting the reading matter on picture side follow layout enclosed in envelope. Try to make this a superb typographical job.

MR. BUETTNER:

The outside of building is color No. 16. Bedroom walls are No. 11. Coloring of carpet in bedroom is as follows: Flower design color #22, background #10. This is a sort of taupe and rose.

Lobby Walls are #10. Lobby rug #23, which has blue background and also has No. 22 which is a sort of rose tint color.

See sample card enclosed for more color information suggested

INSTRUCTIONS.

MR. SLADEK:

Have a rephoto made of colored picture showing a bird's eye view of the Park Place Hotel at Traverse City, Michigan. After having the rephoto made retouch this rephoto as a night view, making the following corrections:

Have the beacon light show rays coming across the sky on both sides of hotel. Make the small building which is a hotel a little larger. Put a street between small building and large hotel building. Take out walk which is in extreme front of view. Take out awnings on left side of picture and add French doors where awnings are taken out. Take out furniture which appears on roof, left side of picture, only. Take out street on left side of picture. To be sure that you do the retouching correctly follow pencil lines and markings on black-and-white proof which is enclosed.

Study card enclosed in envelope #72010. Over one of the buildings I have marked three red lines. This means that the small building on other side of the large hotel on upright card is the same identical building, and this bldg. which is crossed out with blue pencil on card No. 72010 has been torn down and new building put up in its place.

We believe that this explanation of how bldg. stands on card #72010 will help you with your retouching on streets and smaller hotel (annex bldg.). DO NOT SPEND MORE THAN 6 HRS. RETOUCHING THESE CORRECTIONS GIVEN.

Submit retouched photo to Advertising Dept. for oken. MAKE CORRECTIONS IN 6 HOURS, LET US KNOW WHAT YOU CAN DO.

MR. BUETTNER:

In coloring this night view be sure that you get an attractive colorful beacon light. Also try to color night view of bldg. in such a manner that they stand out very prominently even in the dark. Have a sort of reflection around roofs of all buildings so that no detail will be lost. We want a beautiful job. Rush hand colored proof. For coloring you can follow the upright card, and for the small hotel see card #72010 enclosed in envelope.

Take out wires but leave shadowing on church.
" snow off roof.

It is not necessary to retouch stonework, but customer desires to have photograph cropped one inch on the bottom to eliminate the excessive white space. Cropping on the right side will eliminate the back of an automobile.

Take out the octagonal sign in the foreground. This appears in front of the church steps.

Change the snow seen on ground to a green lawn. Customer wants a summer scene instead of a winter scene.

INSTRUCTIONS:

VANCE HOTEL

MR. SLADEK:

When retouching see color instructions given to Mr. Buettner.

On photograph showing an exterior view of hotel make the automobiles look a little more up-to-date. Change the old "Lizzie" to look like a Packard. Fix up the truck to look like a LaSalle.

Add a woman on sidewalk exactly the same as appears on the photograph that is not retouched, but change her to a more modern woman. Make her look like a white person instead of a negress. Add more snap to the clothing.

MR. BUETTNER:

Lobby of the Vance Hotel has a marble tile 4 inches high, running all around the wall, except between dining room and lobby. Pillars are timmed likewise. Side walls are in buff and the ceiling beams the same, using the lighter cream and ivory to blend. Ceiling is cream color. The furniture is upholstered in tapestry, blue and silver predominating. Draperies are blue and silver with silver trim.

MESSRS. BUETTNER AND SLADEK:

The copy for one of the cards is to be a reproduction of the sign which these people are using. Enclosed is a very clear photostat which will need very little retouching to enable you to make your black plate.

Enclosed is an extra copy of this photostat on which we have marked in pencil just what the color scheme is to be. The background is a brilliant orange. On the reproduction of the Smitty button, follow the button colors on the face and hat.

On the other card, the upper part of the card is to be made with a solid blue background as dark as possible, and the lines radiating from the button, which we have indicated in green, are to be in a bright yellow. The button is to be reproduced in its actual colors as shown. The lettering 7,000,000, etc. is to be in black but in very bold letters. The words, "consider this, etc." are to be in red on a white panel and the lines we have indicated in red pencil are to be black. The other copy is to be on an orange background in black and the orange should match the orange which will appear on the other card.

MR. SLADEK:

On the photograph you no doubt will see
some wires hanging down from the pole, which have been
broken, therefore, take them out.

The shadows cast from the signs "Camp
Jackson" and the "Kerr's Barbecue" must be taken out.

If you will look at the lights even with
the top of the entrance where an auto is headed out,
you will find they are glass globes. The light on the
nearest corner should be the same, but it had a
reflector on it.

INSTRUCTIONS:

Subject - BROADWAY BANK NIGHT VIEW
MESSRS. SLADEK AND BUETTNER

First Floor:- White Indiana Limestone. (To be brought out the same as Union Trust Bldg. post card.)

Let the words "Western Union" on plate glass window remain.

MAKE A NIGHT VIEW

Six ornamental lights on building - white glass and illuminated with white bulbs, therefore displaying very brilliant white light. However, on the bottom and top of these lights there is a piece of red and green glass which throws out light of these colors. The red glass covers half of the bottom and top on the right side; The green is on the top and bottom of the left side. This causes a colored stream of light to be thrown against the white limestone and extending with diminishing intensity until it finally fades out at a distance of the top of the fancy stone work around the entrance. The same applies to bottom of lights.

Example:

This color should not be solid, but sort of a TINT.

Second Floor:- Red brick, This floor cannot, we suppose be brought out with the same degree of intensity used on the white stone. The building to right of the Union Trust Bldg. marked X seems to be about the way the second floor could be treated. We leave this to your judgment.

Sign:- Red Neon. Make this as prominent as possible. Note the decoration on each side of the word "Bank." These represent poppies. The more brilliant part (flower) is red neon. The dim outline is the stem and is green neon.

Windows:- All are to be shown as illuminated. For this use combination of red and yellow. Do not use any blue as in Union Trust Bldg. Post Card because customer does not like this color for windows.

INSTRUCTIONS:
Subject - GROUP 4 POST CARD

MR. SLADEK:

This post card is to be a group 4 subject, and since some of the photographs are rather oddly shaped, it first will be necessary to make two or three rough pencil sketches by layout man, so as to give customer a general idea of how grouping will be carried out. We want pencil layouts that have a lot of punch to them, something with a lot of advertising value, and which are very attractive. What can you do?

If you find that it will be necessary on layout to make the tall building of Delaware Apt. Hotel narrower, you can do it, because the tall bldg. on one side of it is not a part of the Delaware Apt. Hotel. This can easily be seen by studying the structure. Only one line of windows shows on the next building.

When making layout be sure that all titles are not overlooked.

Read color instructions given to Mr. Buettner.
MR. BUETTNER:

Color of East Delaware Apt. Hotel is dark red brick with terra cotta trim. Color of Grandeur Apt. Hotel is cream brick with terra cotta trim. Color of Devon Arms Apt. Hotel is cream brick and terra cotta trim. Color of Touraine Apt. Hotel is red brick and cut stone.

INSTRUCTIONS:

Subject - HOTEL GRAND VIEW

MR. SLADEK:

This photograph does not seem to work up in a regular white border card. Customer does not allow us to cut any of the top off or any of the bottom off. No doubt you have quite a bit of space on each side, which could be filled in with some straight line decorative effect or color effect, therefore, before halftone plate is made on this subject, have a rough pencil sketch made by layout man, so as to indicate what type of decorative rule effect could be put on this subject. Perhaps the decorative effect could be birds flying or a sea gull soaring; perhaps a picture of a Colorado magpie or columbine.

Submit pencil sketch for oken.

Pikes Peak is the large mountain which appears in the rear. This should be snow-capped, therefore, when retouching photograph be sure you give it a good snow-capped appearance. Read color instructions to Mr. Buettner.

MR. BUETTNER:

The high mountain in background is Pikes Peak. This must have snow-capped appearance. Color of hotel:

trim of building - white
body - light gray
roofs (?) - green

Since most of the trees and mountains surrounding the property are green, it may be well to have roof a slate red. However, you may use your judgment in this manner.

INSTRUCTIONS:

HOTEL REICH

MR. SLADEK:

In retouching this photograph be sure that both signs on top of building show as they actually appear. Show two American Flags on poles above marquise. Also add flags in center of building at top, as shown by pencil markings on photograph. If possible, take out the characters and automobiles around building, and replace them with characters and automobiles to your liking. Mr. Sladek, the automobiles as they appear, I believe are okeh. Possibly you could add more life to this picture by putting automobiles in action, driving down the street, and people walking instead of leaning against building.

Read color instructions given to Mr.

Buettner.

MR. BUETTNER:

The exterior of the Reich Hotel is built of brick, which would not be classed as red, being a mixture of all colors, some lighter than others, browns and tans thrown in. However, red predominates, all being in white mortar.

Trimming or decorative treatment is of Indiana Limestone.
